

Building My Unique House

Time Needed: 20 Min

Materials Needed:

- Building My Unique House handout (Below)

Procedures:

1. Have a class discussion about why it is important that we are all different and how it is those differences that make us all special and unique.
 - o Ask students what are some things that make them different. Encourage students to compliment each other on those differences (they can practice now, while they are each sharing).
2. Explain that understanding the things that make them who they are builds their self-awareness, which is important for them to be successful in life.
 - o Lamar wants all students to know what makes them unique and what their strengths are because those are the things that build Leadership.
3. Use the *Building My Unique House* worksheet to help students build their self-awareness and learn what makes them special and unique. Allow time for them to draw their houses.
4. If time allows, have students hold their houses up for others to see and explain what characteristics helped them build their unique houses.

Discussion Questions:

1. What would our school be like if everyone was the same?
2. What makes someone a good leader?
3. After making your house, what do you think makes you a good leader?
