**Monday, November 16, 2020**

	<b>12 pm</b>	<b>1 pm</b>	<b>2 pm</b>	<b>3 pm</b>	<b>4 pm</b>
<b>Curriculum/Theme:</b>	<b>Science</b>	<b>Science</b>	<b>Science</b>	<b>Social Studies</b>	<b>Social Studies</b>
<b>Grade Band:</b>	(Grades 6-12)	(Grades 6-12)	(Grades 6-12)	(Grades 6-12)	(Grades 6-12)
<b>Program Title:</b>	<b>Prehistoric Road Trip: Welcome to Fossil Country</b>	<b>NOVA: Making North America: Origins</b>	<b>Power Trip: The Story of Energy: Water</b>	<b>The African-Americans: Many Rivers to Cross, Episode 1: The Black Atlantic (1500-1800)</b>	<b>The African-Americans: Many Rivers to Cross, Episode 2: The Age of Slavery (1800-1860)</b>
<b>Description:</b>	Travel with Emily through billions of years of Earth's history to meet some of its earliest life forms, from primitive bacteria to giant reptiles and many surprising creatures in between.	Experience the colossal geologic forces that shaped our continent over 3 billion years.	Learn how water and energy are interconnected and how we can make energy "less thirsty" and water less energy-intensive.	Beginning a century before the first documented "20-and-odd" slaves came to Jamestown, Virginia, the episode portrays the earliest Africans, slave and free, who arrived on these shores.	Black lives changed dramatically in the aftermath of the American Revolution: for free black people, these years were a time of opportunity, but for most African Americans, the era represented a new nadir.

<b>Grade Band:</b>	(Grade 6 / Grade 7)	(Grade 8/ Algebra 1)	(Grades 6-12)	(Grades 7-12)	(Grades 7-12)
<b>Program Title:</b>	<b>Illustrative Math Grade 6 Unit 3 Lesson 1 / Illustrative Math Grade 7 Unit 5 Lesson 3,4</b>	<b>Illustrative Math Grade 8 Unit 5 Lesson 5 / Illustrative Math Algebra 1 Unit 6 Lesson 10</b>	<b>Power Trip: The Story of Energy: Food</b>	<b>Reconstruction: America After the Civil War (Part 1, Hour 1)</b>	<b>Reconstruction: America After the Civil War (Part 1, Hour 2)</b>
<b>Description:</b>	Finding the Percentage / Changing Elevation	More Graphs of Functions/ Graphs of Functions in Standard and Factored Forms	How can we harness energy to feed our growing population without the downsides of industrialization?	African Americans had played a crucial role in saving the Union and now, as the country grappled with the terms and implications of Reconstruction, they struggled to breathe life into their hard-won freedom.	For African Americans living in the former Confederacy, Reconstruction was what historian W. E. B. Du Bois once described as their “brief moment in the sun,” but support for the social, economic, and political gains they achieved didn’t last long.

<b>Program Title:</b>	<b>Prehistoric Road Trip: We Dig Dinosaurs</b>	<b>NOVA: Making North America: Life</b>	<b>Power Trip: The Story of Energy: Transportation</b>	<b>Reconstruction: America After the Civil War, (Part 2, Hour 1)</b>	<b>Reconstruction: America After the Civil War, (Part 2, Hour 2)</b>
<b>Description:</b>	The dinosaurs dominated the planet, then suddenly disappeared—find out what happened to them and how other life forms survived.	How did massive volcanic eruptions, inland seas, and land bridges pave the way for life?	Travel across the centuries to discover the energy that brings us modern transportation that allows us to travel over land and across the sky, changing societies and our sense of place.	The years 1877-1896 were a transitional period that saw visions of a “New South” and set the stage for the rise of Jim Crow and the undermining of Reconstruction’s legal and political legacy.	At the turn of the century, white supremacy was ascendant and African Americans faced both physical and psychological oppression, but African Americans found ways to fight back, using artistic expression to put forward a “New Negro” for a new century.
