<b>Description:</b>	Explore the boiling streams, crystal-clear lagoons, pink river dolphins, and a strange new reef—some of the many secret and extreme worlds that are part of the greatest river system on Earth.	Florida is home to beaches, coral reefs, pine forests, and the famous Everglades wetland, but a growing human population and abandoned exotic pets (like pythons) threaten this wild paradise. Can Florida's ecosystems continue to weather the storm?	Greta and her sixth-grade pals use passive solar heat and bubble-wrap insulation to warm up an ice shanty on a frozen Minnesota lake. / Go behind the scenes to see how a team of scientists and engineers builds an instrument to be taken on a mission to explore the asteroid Bennu.	Henry Louis Gates Jr. uncovers the complex trade networks and advanced educational institutions that transformed early North and West Africa from deserted lands into the continent's wealthiest kingdoms and learning epicentres.	Henry Louis Gates Jr. explores the power of Africa's greatest ancient cities, including Kilwa, Great Zimbabwe, and Benin City, whose wealth, art, and industrious successes attracted new European interest and interaction along the continent's east and west coasts.
