

LEAD WITH MUSIC

Explore Music with Your Child!

QUICK MUSIC ACTIVITIES
FOR BABIES &
TODDLERS

Even the youngest children can engage with music!
Create moments of musical exploration together
by:

TALKING!

Make different sounds and play with the ways that you can use your voice and encourage your child to try it, too!

SINGING!

Let your child hear you sing and encourage them to sing along! Nursery rhymes are great for this!

MOVING!

Children can copy controlled movements, which helps their brains develop. Move around together!

DANCING!

Create a playlist using different types of music and have a dance party!

Music exploration can happen anytime and anywhere: at home, on the move, or out and about! Weave in playful musical moments all throughout your day as you and your child learn and play together! Scan the QR code to learn more.
